Welcome to the Palestine Lives Matter page (), your go-to platform dedicated to the cause of Free Palestine.

Through our Palestine Lives Matter Telegram group (https://t.me/chatting_group20) and Western Hypocrisy Telegram channel (<https://t.me/westernhypocrisy>), we

unite voices and amplify messages of solidarity and awareness.

Palestine Lives Matter is a movement that seeks to shed light on the systemic discrimination, violence, and oppression faced by Palestinians daily. This movement aims to bring attention to the human rights violations and injustices experienced by Palestinians and to advocate for their rights to equality, justice, and freedom.

Through education, advocacy, and peaceful protest, Palestine Lives Matter works to amplify the voices of Palestinians and to challenge the structures of power that perpetuate their suffering. The movement seeks to build solidarity with other marginalized communities and to work towards a just and equitable future for all people in the region.

By resonating the miseries of Palestinians and raising awareness about their struggles, Palestine Lives Matter aims to create meaningful change and to achieve justice, equality, and freedom for all.

Join us (https://t.me/chatting_group20) to connect, share, and support the movement for justice and freedom in Palestine.

Anti-Semitism is false claims to justify genocide in Palestine because Palestinians are also Semitic, and Palestinians are Canaanite, not Arabic (in the past they talked in Aramaic like Jesus A.S but now in Arabic), DNA test proves it. We're fooled by Western

propaganda.

Zionism Vs Judaism, according To Rabbi Yisroel David Weiss, a Naturei Karta senior faction of Jews. Palestine's independence isn't about religious issues but it's about humanity and we don't need to be Muslim to support Palestine's basic needs, sovereignty, and statehood.

Before Zionism existed, we lived in peace and harmony, no matter what our religion, ethnicity, and race, this happened over centuries.

Israel murdered more than 38 thousand Palestinians and still counting, while America keeps supplying weapons to the genocidal regime of Netanyahu. Gazans are in starvation, the worst state of humanity crisis in the modern era, we witnessed it and the Gazans faced it.

The genocidal regime of Israel has murdered more than 15,000 children over these 9 months and the

International Community (United Nations) or even neighboring Arab League and OIC (Organization of Islamic Cooperation) are unable to stop the Israeli systematic killing machine.

To get the latest updates, we use sources from reliable Telegram channels such as Quds EN (<https://t.me/QudsNen>), Eye On Palestine (<https://t.me/eyeonpal>), Resistance News Network (<https://t.me/PalestineResist>), The Cradle (<https://t.me/thecradlemedia>)etcetera. We try to share the atrocities of Israel with the world, we can't be just silent because there's a systematic genocide in Gaza. It didn't start on October 7th but it's been going on since 1948 Nakba, which was 76 years ago.

"They bombed the neighborhood so heavily, and the house was shaking as if it was an earthquake. People were running in the street and screaming. I carried my two children and

Al-Shujaiya neighborhood, one of the Gaza Strip's most densely populated areas, is enduring relentless bombardment by Israel, forcing residents to evacuate amid heavy

shelling. This has slaughtered dozens of innocent Palestinians as they attempted to flee ahead of advancing Israeli tanks
